

It has come to my attention that there is a possibility of K-LOVE (a nation-wide radio station) being replaced by a local LPFM broadcast channel. This would be a travesty! The only station I listen to is KLOVE, I monetarily support KLOVE because it is a family friendly version of news, music, and LOCAL information that is vital to me as a San Antonio resident. If KLOVE were to be replaced by anything else, I would be devastated. There is no other service ANYWHERE (I have been all over the country) that gives me what I need the way KLOVE does. If KLOVE was not available, I would not listen to the radio, and would not get the news, Amber alerts, and weather alerts that I need to have to be aware and alert to goings on around me. DO NOT let this happen!!

Thank you.
